

**Self-adhesive
Photoluminescent Tape**

6 6226 20mm x 10m £20.50

6 6227 40mm x 10m £54.90

6 6228 80mm x 10m 91.98

6 0317 40mm x 10m £55.97

6 0318 80mm x 10m £115.32

6 0319 40mm x 10m £55.97

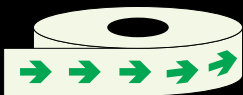

6 0325 80mm x 10m £107.18

6 4101 40mm x 10m £55.97

6 6377 L/R 40mm x 10m £59.65

6 6378 40mm x 10m £59.65

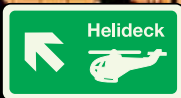

The permanent transparent decals (for the above two rolls) are supplied separately to the tape so that they can be fitted at the time of installation at the most suitable places along the evacuation route. 10 decals per roll of tape.

Marine environments are amongst the toughest and most hazardous environments to work in. The use of signs and symbols is paramount to the safety of the crew and passengers. The symbols we use are designed in accordance with SOLAS and are extensively used aboard marine vessels and offshore rigs. All signs are manufactured from Stocksigns Hilume photoluminescent material which significantly exceeds the performance requirements of the IMO. Our large format digital printer also allows us to produce high quality technical deck plans and evacuation plans. Photoluminescent vinyls and an overlay film protect the signs from UV light and salt damage.

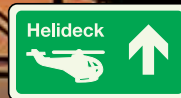

Hilume is a PSPA (Photoluminescent Safety Products Association) Class B performing product which means it is much brighter for longer than the usual PSPA Class A product found in safety signage and is suitable for exterior use.

Helideck Signs
