

Can Stocksigns make it three years running?

Stocksigns is delighted to have been short listed for the third year running for a major European Business Award. The annual European Catalogue & Mail Order Days Exhibition due to run from 23rd to 25th November concludes with a gala dinner and awards ceremony, where the overall winners will be announced. The Stocksigns catalogue has been successful twice in previous years in gaining the prestigious ECMOD award.

Joanna Godden, Marketing Manager was thrilled to hear the news earlier this week and commented "Just being nominated for a third year running is very exciting and goes to illustrate the hard work that the team put into producing the catalogue each year"

The ECMOD awards are designed to reward excellence in the catalogue and home shopping arena and seek to recognise those businesses which are truly customer focused and committed to the goal of offering quality products backed by excellent service.

The final judging decision will be announced on 25th November 2004.
