

Stocksigns have been great at working in partnership with us... After the design has been approved, they will print and apply tough anti-graffiti vinyl wrap to the main panel of our kiosks. The vinyl wrap service is very popular with our customers as it can be updated when required so that the kiosk could be used for a different campaign or function. Stocksigns also apply silk screen logos to the upper panels for branding. We're really pleased with the results.

SABRE vision**

The aim of the project was to provide the best possible service to our customers. All of our equipment including Stocksigns signage reflects that. We could not have completed the project as easily as we did without Stocksigns assistance. Somerfield Stores Ltd have used the signs to raise awareness of DDA issues. To date we have had one Local Authority asking where to get the car park signage and another looking for signs for all their libraries.

Stocksigns timely production and delivery of signage to multiple contractors was essential in ensuring an efficient roll out.

The screen print quality was very good, unlike the vinyl lettering provided by other signage companies. Unit costs were competitively tendered for and adhered to over the life of the project.

Stocksigns provided help in background research. It was reassuring to be advised on legislative issues and British Standards, International Standards (ISO) and EU directives. Stocksigns offered added value to the project.

PN, Somerfield Stores Ltd.

It was important that our sign was bright, eye-catching and yet fun. Our pre-school is set back from the road so it needed to be easy to read at a glance. Stocksigns came up with this great sign solution which fulfilled all our criteria at very short notice just in time for the new term.
