## **Presentation for 50 years in the Health and Safety Industry**

Stocksigns were delighted to receive a commemorative plate and birthday cake for their 50 years contribution to the Health and Safety Industry.

As part of this years Golden anniversary celebrations Stocksigns co-hosted the exhibitors' party at the Safety and Health Expo, held at the NEC during May. More than two hundred safety and health professionals accepted the

joint CMP & Stocksigns invitation to attend the party. The evening gives the opportunity for fellow exhibitors to network with other companies working in the health and safety industry and to swap industry news, have a drink and relax.

The evening started with an introductory speech and welcome from Chris Fountain, CMP Event Director. This was shortly followed by a few words about Stocksigns 50<sup>th</sup> anniversary and recognition of their contribution to the industry. Jeremy Leathers was then presented with a commemorative plate and birthday cake.

On acceptance Jeremy commented "This is a great honour, reflecting half a centuries' effort, commitment and contribution, over 50 years, of a lot of people towards improving the safety, at work and elsewhere, of an even larger number. I am delighted to be associated with such a venture."
