

Enviro Signs, a range of environmentally friendly sign alternatives for the conscientious contractor.

Stocksigns are pleased to now offer all standard signs in two eco-materials; FSC certified display board and non PVC bubble board, both of which are 100% recyclable.

Recyclable display boards & hoarding

Recyclable Display Board

Ideal for temporary indoor and outdoor signage, the Enviro Signs, recyclable display board, offers a genuine alternative to plastic, foam board and composite material.

This 100% fibre based board is Forest Stewardship Council (FSC) certified, fully recyclable and compostable.

Key Features

- Forest Stewardship Council (FSC) approved material
- Fully recyclable, compostable and contains up to 60% post-consumer recycled content
- Suitable for external and internal use
- Weather and moisture resistant
- Guaranteed 6 month lifespan when used outdoors
- Board Thickness – 2 mm
- Maximum Standard Panel Size 1220mm x 2440mm

Bring your messages to life with the Enviro Signs Range

Using Enviro Signs allows you to create an innovative and professional look to communicate your safety and sales messages to potential customers and the general public. Both products can be used to create individual signs or large scale hoarding panels.

For more information on the Enviro Signs Range, please contact our sales team on 01737 774077.

Extra Peace of Mind at No Extra Cost

Helping the planet need not cost the earth!

The Enviro Signs range is currently available at the same price as signs produced on standard 1mm plastic.
