

Enviro Signs, a range of environmentally friendly sign alternatives for the conscientious contractor.

Stocksigns are pleased to now offer all standard signs in two eco-materials; FSC certified display board and non PVC bubble board, both of which are 100% recyclable.

Recyclable display
boards & hoarding

Non PVC Bubble Board

The Enviro Signs bubble board is sturdy, rigid with a smooth print finish and excellent display appearance.

Being 100% recyclable the bubble board offers a hard-wearing temporary signage alternative to conventional plastic and foam boards.

Key Features

- Environmentally Friendly Non PVC Product - 100% Recyclable
- Lightweight and Water Resistant
- Smooth Print Surface
- Excellent Fabrication Properties - Routable & Foldable
- White Centered Finish With UV Additive to Improve Exterior Performance
- Guaranteed 36 month lifespan when used outdoors
- Board Thickness – 3mm
- Maximum Standard Panel Size – 1220mm x 2440mm

Bring your messages to life with the Enviro Signs Range

Using Enviro Signs allows you to create an innovative and professional look to communicate your safety and sales messages to potential customers and the general public. Both products can be used to create individual signs or large scale hoarding panels.

For more information on the Enviro Signs Range, please contact our sales team on 01737 774077.

Extra Peace of Mind at No Extra Cost

Helping the planet need not
cost the earth!

The Enviro Signs range is
currently available at the
same price as signs produced
on standard 1mm plastic.
