Easy Ordering Guide

Understanding the Code

10 20 30 11090 KD | RG

MATERIAL CODES

This tells you the materials the sign is available in.

e.g: 10 = Aluminium
20 = Rigid Plastic
30 = Self-Adhesive Vinyl

SIZE CODES

These are the sizes that the sign is available in. (See price grids for size identification)

PRODUCT CODE

This is the unique product code for that design.

E.g. This sign in Rigid Plastic, 600 x 200mm: 2011090 RG

How to Order

10 20 30 11090 KD | RG

STEP 1

- Find the sign design you require.
- Note the product code.

10 20 30 11090 KD | RG

STEP 2

- Choose the material you require.
- Use our material guide on the left to select the most suitable material for the job.

10 20 30 11090 KD | RG

STEP 3

- Look at the sizes your sign is available in.
- Use the price grids for size codes.
- Choose the most appropriate size using the installation guide above.

Photoluminescent Fire

BS EN ISO 7010 Standard Signs

Our photoluminescent material is a PSPA (Photoluminescent Safety Products Association) Class B performing product which means it illuminates in the event of fire. Also available from Stocksigns is the PSPA Class C product which if required should be stated at the time of order. This may incur additional cost.

Both materials are suitable for interior and exterior use.

- ▶ White appearance under usual lighting conditions and glows bright green in dark conditions.
- ▶ Flame retardant - Passing all flame, smoke and toxicity tests
- ▶ UV resistant - Enabling use both indoor and outdoor.

Can be used for all escape routes

Photoluminescent Fire

Fire Fighting Equipment Signs

Photoluminescent Fire Action Notices

Projecting Fire Equipment Signs

Highly visible from several directions, these signs are designed to be fixed above fire equipment where flat signs would not easily be seen from some angles. Signs are supplied with concealed fixing holes for easy fixing. Size of each sign face is 200 x 300mm.

Fire Equipment Number Markings

REMEMBER

For a satisfactory performance, photoluminescent materials require initial activation from a good light source.

Need bespoke signage?

Bespoke and branded signage is available on request. Signage must comply with the Regulatory Reform (Fire Safety) Order 2005 but this does allow for branding and different sizes.

Call the team to get started on 01737 774072

Photoluminescent Floor Markers

Photoluminescent floor markers will assist with orientation during evacuation, and enhance your overall way guidance system. These signs will adhere to most clean, smooth floor surfaces and are ideal for reinforcing your safety policy.

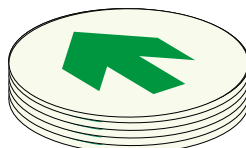

This product is not suitable for external use.

General Fire Action Notices

Our standard fire action notices contain several texts which are in common use but may not be appropriate for all circumstances. If these texts do not meet your requirements, please call our **Sales Team on 01737 774077**.

We are also able to add your own details in the 'write-on areas' of standard fire action signs at additional cost.

For use in blocks of flats

Fire Action

The fire procedures for your block are based upon a "stay put if safe" strategy.
People need only evacuate areas that have fire or smoke.

IF YOU DISCOVER A FIRE IN YOUR FLAT

1. Leave at once shutting the doors behind you.

2. Leave the building by the nearest and safest route.

3. Telephone the Fire Brigade by dialling "999" or "112" and give your address and postcode.

Wait for the Fire Brigade to arrive. Do not re-enter the building.

IF YOU ARE SAFELY WITHIN YOUR FLAT & THERE IS A FIRE ELSEWHERE IN THE BLOCK

You should be safe to stay in your flat keeping the doors and windows closed.

On arrival the Fire Brigade will make an assessment and will assist with evacuation if required.

If you wish to evacuate, leave closing doors behind you and exit the building.

IF YOU ARE IN A COMMUNAL AREA & BECOME AWARE OF A FIRE

Leave the building at once & alert the Fire Brigade by telephoning "999" or "112".

IF LEAVING THE BUILDING PLEASE

• Do NOT use lifts (unless this has specifically been agreed in a Personal Emergency Evacuation Plan).

• Do NOT re-enter the building until instructed to do so.

Your Assembly Point is: _____

GJ3882-0

10/20/30 05093 JK

For use in buildings with lifts

Fire action

IF YOU DISCOVER A FIRE

1. Immediately operate nearest alarm call-point.
2. Attack fire, if possible, with appliances provided but without taking personal risks.

ON HEARING ALARM OF FIRE

3. The _____ will call the Fire Brigade immediately by EXCHANGE TELEPHONE
- (a) Lift receiver and dial '999'.
- (b) Give operator your telephone number and ask for FIRE.
- (c) When Fire Brigade replies give call distinctly FIRE AT _____

DO NOT REPLACE RECEIVER UNTIL ADDRESS HAS BEEN REPEATED BY FIRE BRIGADE

CALL FIRE BRIGADE IMMEDIATELY TO EVERY FIRE OR ON SUSPICION OF FIRE

4. Leave building and report to person in charge of assembly point. _____
- USE NEAREST AVAILABLE EXIT

DO NOT USE LIFT
DO NOT STOP TO COLLECT PERSONAL BELONGINGS
DO NOT RE-ENTER BUILDING

10/20/30 11032 JK

Fire Safety Equipment Signs

Fire Fighting Equipment

Clearly identify your fire fighting equipment.

These signs contain symbol designs which conform to BS EN ISO 7010. These standards require the location of all fire fighting equipment to be marked in RED.

Available in Aluminium (10 series), Rigid Plastic (20 series), Self-Adhesive Vinyl (30 series) and Photoluminescent. These signs allow easy identification of the location of fire fighting equipment. Please call our **Sales Team on 01737 774077** if you require any advice on the use of these signs.

10|20|30 17127 GF

In order to fulfil your legal obligations it is a requirement to display the details of your designated fire marshals.

Our range allows for names, photographs and their location within the building to be included.

Fire Extinguisher Location Panels

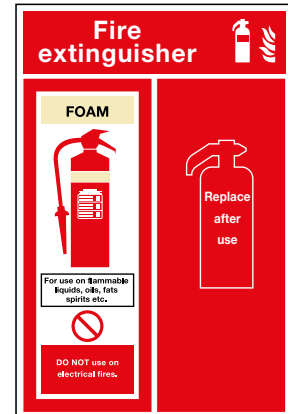

Manufactured from 16swg aluminium, these fire extinguisher location panels both identify the extinguisher and give a visual warning as to when the extinguisher has been used and not replaced.

This signage solution is easily fixable with your existing fire extinguisher brackets. Alternative brackets should be sourced from your extinguisher supplier.

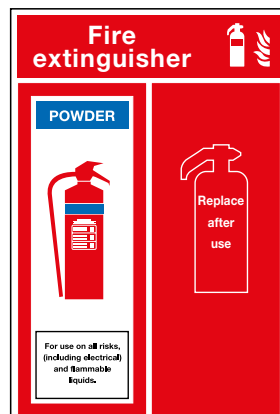

Extinguishers are not included.

Fire Safety Equipment Signs

Fire Extinguisher Identification to BS EN3 and BS 7863

Under BS EN 3 operative from the 1st January 1997, all new certified fire extinguishers used in European union countries must feature red bodies. In line with familiar uk practice, BS 7863 allows manufacturers to affix coloured identification panels on or above the operating instructions covering no more than 5% of the body surface area and visible through a horizontal arc of 180 degrees when the extinguisher is mounted. The signs featured immediately below reflect the regulations.
