Your comprehensive signage directory

# Welcome to Stocksigns

## Your Personal Signage Experts

It's all in the name, we make signs! Stocksigns has been one of the UK's most popular signage manufacturers since 1955 due to their high quality products and exceptional personal service.

Stocksigns specialise in supplying safety signs to the trade, construction, facilities management and traffic management industries.

**Our products are important, but our customers are our priority.**

Stocksigns Ltd is a fully accredited and certified manufacturer who are dedicated to providing exceptional personal service and high-quality products.

We pride ourselves on the exceptional personal service we provide to all our customers. At the end of the phone, on Live Chat or at the end of an e-mail is a real person (no robots here!).

### Fully Accredited and Compliant Manufacturer

We can confidently say that our products are high quality and one of the best you'll find on the UK market. To ensure it stays that way, all our safety signs are manufactured in compliance with BS EN ISO 7010 and our business is ISO 9001 certified.

We are proud certified members of Constructionline (Gold), Achilles and ARTSM. All of these achievements are a result of our team's hard work and dedication to quality.

As a business customer of Stocksigns, you will have a dedicated Account Manager to help you every step of the way; whether you urgently need some construction site signs or bulk of Fire Exit Signs, we are here to help.

### The Stocksigns Group

43 Ormside Way, Redhill, Surrey, RH1 2LG

## Rigid Plastic

Our best-selling material choice, 1mm semi-rigid plastic PVC is suitable for interior and exterior use. Signs are supplied with square corners no holes as standard.

*Series Code - 20*

## Self-Adhesive Vinyl

A cost effective high gloss PVC with a peel off backing, self-adhesive vinyl is ideal for interior signage. This material adheres to most smooth, clean surfaces including curves.

*Series code - 30*

## Photoluminescent (Rigid Plastic and SAV)

Photoluminescent signs provide temporary visibility in the dark making it ideal for fire signage. In line with PSPA, standard signs are produced on Class B, with Class C material available on request.

*Series Codes - RP 21 / SAV 31*

## Foamex

A versatile PVC foam sheet with a smooth matte finish. This material is often used for temporary signs requiring a superior look. Available in 1, 3 and 5mm thicknesses.

*Bespoke material on request*

## Aluminium

Aluminium is a long-lasting durable coated metal that can be used for both interior and exterior signs. Signs are supplied with radius corners with holes as a standard.

*Series Code - 10*

## Aluminium Composite

A rigid yet lightweight composite panel which offers a cost effective alternative to standard aluminium. With minimal scrap value, its use can help deter signage theft. This material is ideal for internal or external use.

*Series code - 11*

## Correx (Polypropylene)

A durable yet lightweight recyclable corrugated PVC material particularly suited to temporary signs. Available in 4mm and 10mm thicknesses.

*Bespoke material on request*

## Brushed Stainless Steel

Brushed Stainless Steel is available in two grades. 304 grade material provides a prestigious look ideally suited for internal signs. 316 marine grade available on request for external signs.

*Series code - 60*

## Reflective

Class 1 or Class 2 reflective material is adhered to aluminium composite as standard, but can be supplied as a vinyl or applied to any rigid substrate. Generally used for traffic signs that can be post or wall mounted.

*Series codes - Traffic 70, Safety 75*

## Acrylic

A clear material with lightweight and durable properties. Best suited to internal signs for a contemporary look as a cost effective and safe alternative to using glass. Available in 3mm, 5mm and 10mm thicknesses.

*Bespoke material on request*

# Making a Purchase

## Installation Guide

Prior to buying your sign it is important to consider where the sign will be used and from what distance it needs to be viewed.

The diagram below is intended to be used as a guide only.

For further advice speak to our sales team on 01737 774077.

**Recommended installation heights:**

**Above doors:**

2m - 2.5m

from floor level to base of sign.

**Directional wall fixed signs:**

1.4m - 2.0m

from floor level to base of sign.

**300 x 100mm  
(Compact)**  
Viewing distance up to  
10 metres

**600 x 200mm  
(Big)**  
Viewing distance up to  
20 metres

**1200 x 400mm  
(Huge)**  
Viewing distance up to  
40 metres

## Easy Ordering

### Understanding the Code

All of our standard products featured in this catalogue are identified by a unique five or six figure product code, followed in most cases by a size code consisting of two letters. e.g. **20 11090 RG**

**10 20 30 11090 KD | RG**

#### MATERIAL CODES

This tells you the materials the sign is available in.

e.g: **10** = Aluminium  
**20** = Rigid Plastic  
**30** = Self-Adhesive Vinyl

#### SIZE CODES

These are the sizes that the sign is available in. (See price grids for size identification)

#### PRODUCT CODE

This is the unique product code for that design.

To order this sign in Rigid Plastic size 600 x 200mm

use the code: **20 11090 RG**

### How to Order

**10 20 30 11090 KD | RG**

**10 20 30 11090 KD | RG**

**10 20 30 11090 KD | RG**

#### STEP 1

- Find the sign design you require.
- Note the product code.

#### STEP 2

- Choose the material you require.
- Use our material guide on the left to select the most suitable material for the job.

#### STEP 3

- Look at the sizes your sign is available in.
- Use the price grids for size codes.
- Choose the most appropriate size using the installation guide above.

## Payment

- Choose your payment method: Credit Card - We accept Mastercard, Visa and American Express.
- Cheques should be made payable to Stocksigns Ltd.
- Accounts - We will be happy to open a credit account for you (subject to a standard credit check). All such sales are payable no later than 30 days from invoice date.
- BACS Payment welcome. Our account is: The Royal Bank of Scotland plc.  
Account No. 23111244 Sort code 16-00-15  
**All prices are exclusive of Value Added Tax**
- Phone, post or e-mail (sales@stocksigns.co.uk) your order.

By submitting your order, you confirm that you have read and understood our terms and conditions and agree to be bound by them (please see our T&C's online at [www.stocksigns.co.uk](http://www.stocksigns.co.uk) or call 01737 774077 for a copy).

All rights reserved. All of this catalogue is protected by the Laws of Copyright. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise.

### RETURNING A PRODUCT

We expect our products to meet your expectations. However, if you do need to make a return, you MUST use our Returns Procedure.

Please contact our Customer Services Team on 01737 774077, or at [info@stocksigns.co.uk](mailto:info@stocksigns.co.uk), to obtain a returns reference, and subsequently making sure that the packaging is robust enough to avoid damage in transit. On certain returns a re-stocking charge may be applicable.

## Delivery Services

### Export

Worldwide despatch is no problem. Our Export Sales Team is happy to provide quotations for any quantity of signs for any country.

### Collection

At our Trade Counter in Redhill, signs can be purchased and/or collected between 8.30am and 5.00pm Monday - Friday.

### Delivery Costs

The charge for packing, delivery and insurance to most UK mainland postcodes is FREE for standard orders over £50.

Orders for stocked standard signs will be despatched next day and will take between 2-3 days for delivery. Custom made orders will be despatched within 5 working days from receipt of order.

If you require these signs urgently, you may wish to use our premium service, where your signs will be despatched as priority. Please speak to the sales team regarding this service.

## Delivery Charges

Order Value	Delivery Cost
Up to £100	£8.00
£100 or more	Free
Sign Post	£18.00 per post
Construction Signs	£9.75
Large Scale Boards	£54
Off-Shore & Non-Mainland UK	Please contact sales@stocksigns.co.uk

## Accreditations

In order for Stocksigns Ltd to keep up the exceptional service and products, they are checked and validated by industry bodies every year. Below are some of our memberships and accreditation which show off the hard work put in to maintain a high quality company.

If you would like to read more about our accreditations, please visit our 'About Us' page on our website.

Mandatory Fire Safety

17 - 19

Fire Safety Equipment

20 - 26

## BS EN ISO 7010 Standard Signs

Our photoluminescent material is a PSPA (Photoluminescent Safety Products Association) Class B performing product which means it illuminates in the event of fire. Also available from Broadfield Signs is the PSPA Class C product which if required should be stated at the time of order. This may incur additional cost.

Both materials are suitable for interior and exterior use.

- ▶ White appearance under usual lighting conditions and glows bright green in dark conditions.
- ▶ Flame retardant - Passing all flame, smoke and toxicity tests
- ▶ UV resistant - Enabling use both indoor and outdoor.

Can be used for all escape routes

To be used for your Primary (main) escape route only

1mm Rigid Plastic

Photoluminescent  
Rigid Plastic

*All supplied with radius  
corners and holes*

### Need bespoke signage?

Bespoke and branded signage is available on request. Signage must comply with the Regulatory Reform (Fire Safety) Order 2005 but this does allow for branding and different sizes.

## Photoluminescent Floor Markers

Photoluminescent floor markers will assist with orientation during evacuation, and enhance your overall way guidance system. These signs will adhere to most clean, smooth floor surfaces and are ideal for reinforcing your safety policy.

This product is not suitable for external use.

## Assembly Point Signs

This style, (see photo) which uses a symbol that complies with BS EN ISO 7010, is more appropriate for indicating an **ASSEMBLY POINT**. Available in a range of materials, with the option of wall or post mounting (please state which you require on your order). When ordering these signs with the letters and numbers shown here, please use the code followed by the appropriate letter or number; and type of mounting.

Example **10 11935 JK /B**

**10 20 11935 JK | NR**

**10 17895 JK | NR** (Post fix)

**0/1/2/3/4/5/6/7/8/9**

**10 20 11689 JK | NR**

**10 17896 JK | NR** (Post fix)

**10 20 11935 JK | NR**

**10 17897 JK | NR** (Post fix)

Without letter or number

**10 20 11935 JK | NR**

**10 17894 JK | NR** (Post fix)

**A-Z**

**10 20 11920 KJ**

**10 17898 JK** (Post fix)

**A-Z 0/1/2/3/4/5/6/7/8/9**

**10 20 30 17689 KK**

# Fire Safety Equipment Signs

## Fire Fighting Equipment

Clearly identify your fire fighting equipment.

These signs contain symbol designs which conform to BS EN ISO 7010. These standards require the location of all fire fighting equipment to be marked in RED.

Available in Aluminium (10 series), Rigid Plastic (20 series), Self-Adhesive Vinyl (30 series) and Photoluminescent. These signs allow easy identification of the location of fire fighting equipment.

In order to fulfil your legal obligations it is a requirement to display the details of your designated fire marshals.

Our range allows for names, photographs and their location within the building to be included.

## Fire Extinguisher Identification to BS EN3 and BS 7863

Under BS EN 3 operative from the 1st January 1997, all new certified fire extinguishers used in European union countries must feature red bodies. In line with familiar uk practice, BS 7863 allows manufacturers to affix coloured identification panels on or above the operating instructions covering no more than 5% of the body surface area and visible through a horizontal arc of 180 degrees when the extinguisher is mounted. The signs featured immediately below reflect the regulations.

## No Smoking Legislation

July 1st 2007 saw the implementation of a total smoking ban in all enclosed public places, work places and certain vehicles in the UK. Stocksigns has a wide range of No Smoking signs, to help you comply with these requirements. The smoke free legislation means that it is an offence not to display the appropriate No smoking signs, resulting in fines of up to £1000.

## No Smoking Signs

**SMOKE-FREE BARS, CLUBS, HOTELS & RESTAURANTS**  
Guidelines for Bar and Waiting Staff

**The law**  
From 1st March 2008 smoking is not permitted in enclosed public places, including bars, hotels, all types of clubs, cafes and restaurants.  
Provisional consent permits customers or members to smoke in these premises. If they do they will be liable to a Fixed Penalty Fine of £200.

**Why**  
Second-hand smoke kills and causes lung cancer, heart disease and respiratory illnesses in adults and a variety of conditions in children.  
There is no safe level of exposure to second-hand smoke, so ventilation is not a solution.

**If someone breaks the law**  
1. Draw their attention to the No Smoking signs.  
2. Advise them that smoking is prohibited by law and politely ask them to stop smoking.  
3. Advise them of any place where smoking is permitted, such as beer gardens or shelters.  
4. Refuse service to anyone who continues to smoke and ask them to leave.  
5. If a customer refuses to leave, follow usual procedures for dealing with anti-social behaviour.  
6. If threatened, seek assistance of the police. Do not put yourself in any danger.

**SMOKING IN THESE PREMISES IS AGAINST THE LAW.**

\*Premises which have a roof and walls on more than 50% of its perimeter.

As a consequence of the Health Act 2006, the Smoking Ban was imposed across the UK in 2007. This made it illegal to smoke indoors. Many organisations, in particular pubs and leisure establishments now wish to restrict smoking in their outdoor areas.

Easily portable outdoor table top signs allow businesses to convey this and other prohibition messages to their customers.

## Dog Fouling Prohibition Signs

The system of controlling dog fouling under public spaces protection orders was introduced by the Anti-Social behaviour, Crime and Policing Act 2014. In England and Wales, local authorities can introduce public spaces protection orders, making it an offence not to clean up dog mess in certain areas.

## Explosive Atmosphere Signs

Following the linking of explosions to the storage and handling of combustible materials, the Dangerous Substances and Explosive Atmospheres Regulations 2002 (DSEAR) were introduced in order to comply with the Explosive Atmosphere Directive (ATEX 137). Since 2003, any hazardous place needs to be classified into zones and marked with an "EX" sign at the point of entry.

10|20|30 17768 MR

Complies with Health and Safety (Safety Signs and Signals Regulations)

10|20|30 17769 MR

Complies with DSEAR

# Hazard and Warning

## Machinery Hazards

With the Control of Noise at Work Regulations 2005 BSI's Published Document PD 5304 identifies hazards that may arise from the use of machinery.

It describes methods of reduction and elimination of risks from these associated hazards. These signs can be used to complement your safe working procedures for hazardous machinery.

## CLP Regulation

European Regulation on Classification, Labelling and Packaging of Substances and Mixtures (EC1272/2008), known as the CLP Regulation, came into force in January 2009.

There is a two stage transition process with substances being re-labelled by 1st December 2010, and mixtures being re-labelled by 1st June 2015.

Supplied in strips of 20 or in rolls of 100 labels. When ordering please add /20, or /100 after the reference number.

# Hazardous Substances Management

## UN Placards in Accordance with the International Maritime Dangerous Goods Code

UN substance numbering is an IMDG requirement on road and rail tanks, freight vehicles, freight wagons and containers and is displayed by either the use of diamond shaped placards 250 x 250mm (minimum size) with black 65mm high numerals or an orange rectangular panel 300 x 120mm with 65mm high numerals (as in centre margin).

**N.B.** When the latter method is used the panel must be accompanied by the appropriate hazard diamond with class number.

### NEED TO KNOW

These signs are supplied without the inclusion of the UN number, which can be entered with a marker pen (see below), or alternatively, we can print them for you at additional cost.

Example with text added

### DON'T FORGET THE MARKER PEN!

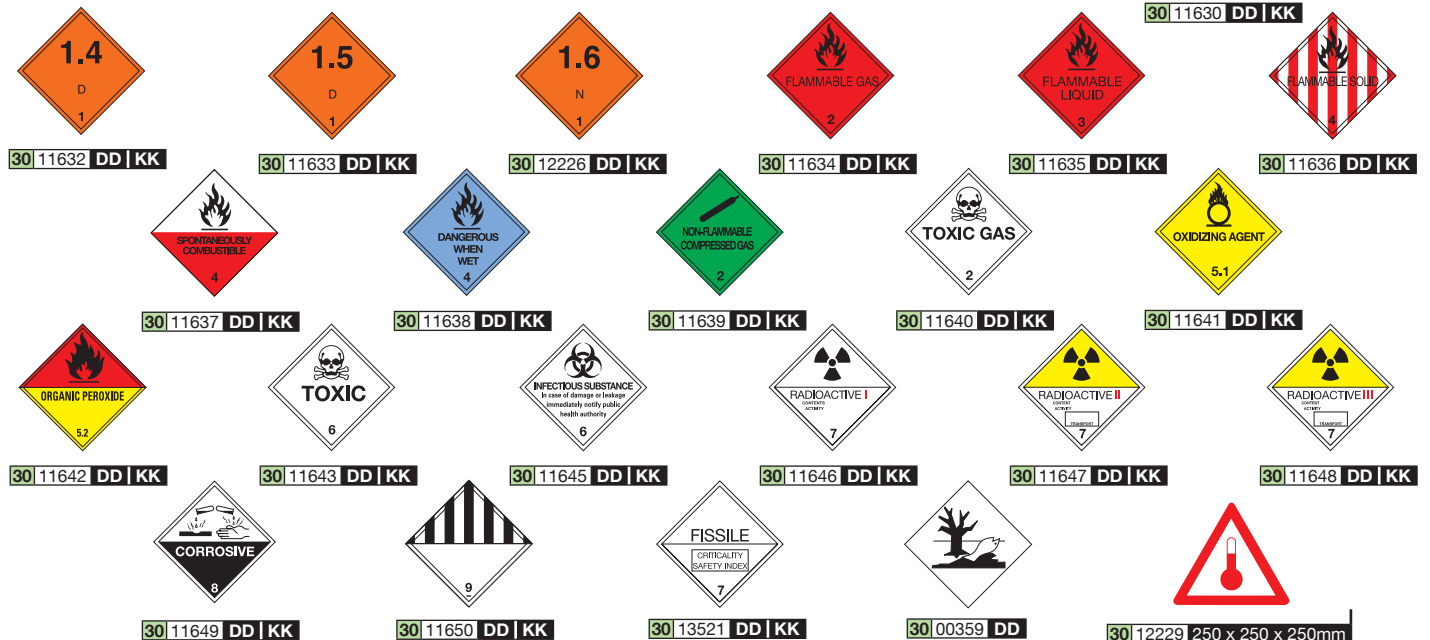

Call: **01737 774077**

69 65584 Fine Point  
69 66026 Bullet Tip

## ADR, RID, IMDG, IATA and ICAP (labels with class numbers)

New requirements following the UN Model Regulations no longer make a distinction between primary and subsidiary warning labels for ADR, RID, IMDG, IATA and ICAO. In the future both will include the Class number.

Printed labels on self-adhesive vinyl, sold singly. Vinyl material conforms to the marine use specification of BS 5609.

# Safety Posters

## Guidance Posters and Training Aids

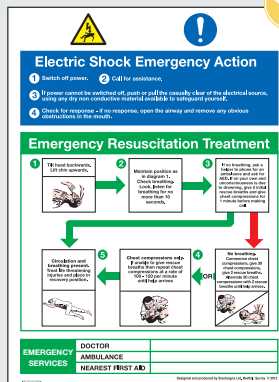

### Health and Safety Law Poster

Employers have a legal duty to display this poster in a prominent position in each workplace.

Posters are available in both A3 and A2 sizes and are supplied in a laminated finish.

Although in some cases it is a legal requirement to display Regulations Guidance posters, the main benefit remains as an invaluable staff training aid. These signs help raise staff awareness and act as constant reminders. Some of these posters are also available in our pocket guide format. Current legislation updates will be reflected in these products and, as such, they are subject to change.

### Training Aids

**Health and Safety Law**

*What you need to know*

All workers have a right to work in places where risks to their health and safety are properly controlled. Health and safety is about stopping you getting hurt at work or ill through work. Your employer is responsible for health and safety, but you must help.

**What employers must do for you**

- 1 Decide what could harm you in your job and the precautions to stop it. This is part of risk assessment.
- 2 In a way you can understand, explain how risks will be controlled and tell you who is responsible for this.
- 3 Consult and work with you and your health and safety representatives in protecting everyone from harm in the workplace.
- 4 Free of charge, give you the health and safety training you need to do your job.
- 5 Free of charge, provide you with any equipment and protective clothing you need, and ensure it is properly looked after.

**What you must do**

- 6 Provide safety, washing facilities and drinking water.
- 7 Provide adequate first aid facilities.
- 8 Report injuries, diseases and dangerous incidents at work to your Incident Contact Centre: 0845 300 9923
- 9 Have insurance that covers you in case you get hurt at work or ill through work. Display a hard copy or electronic copy of the current insurance certificate where you can easily read it.
- 10 Work with any other employees or contractors sharing the workplace or providing equipment or services such as agency workers, so that everyone's health and safety is protected.

**If there's a problem**

- 1 If you are worried about health and safety in your workplace, talk to your employer, supervisor, or health and safety representative.
- 2 You can also look at our website for general information about health and safety at work.
- 3 If, after talking with your employer, you are still worried, phone our helpline. We can put you in touch with the local enforcing authority for health and safety and the Employment Medical Advisory Service. You don't have to give your name.

**HSE helpline:**  
0845 345 0055  
**HSE website:**  
[www.hse.gov.uk](http://www.hse.gov.uk)

**Fire safety**  
You can get advice on fire safety from the Fire and Rescue Services or your workplace fire officer.

**Employment rights**  
Find out more about your employment rights at:  
[www.direct.gov.uk](http://www.direct.gov.uk)

Your health and safety representatives:  
Other health and safety contacts:

**HSE**

**Health and Safety Executive**

The Health and Safety Executive (HSE) is the UK's independent regulator for workplace health and safety. It is responsible for enforcing the Health and Safety at Work Act 1974 and other health and safety legislation. HSE works with employers, employees, and the public to prevent work-related deaths, injuries, and ill health.

63 21190 420mm x 594mm £18.59 Laminated  
63 06792 297x420 (A3 size) £15.40 Laminated

**THE CONTROL OF SUBSTANCES HAZARDOUS TO HEALTH REGULATIONS 2002**

**THE CONTROL OF SUBSTANCES HAZARDOUS TO HEALTH REGULATIONS 1988**

**AFFECT** Premises where work involves the storage use or production of substances hazardous to health

**COVER** Almost every substance which may cause harm to health by whatever method and in whatever way

**IMPOSE** Duty of prevention or adequate control of risk to health on employers AND the self-employed

**REQUI** Assessment of health risks to employees and others on the premises Use of personal protective equipment when prevention or control by other means is not reasonably practicable Monitoring of the exposure to hazards of employees and others on the premises Information and training in control methods of those exposed to hazard Health surveillance of

**EMPLOYERS MUST** Assess health risks to employees and others on the premises Lay down procedures to control and monitor undesirable exposure to substances which may harm the health of employees and others on the premises

**EMPLOYEES MUST** Make full and proper use of any control measures, personal protective equipment (PPE) or facility provided

This includes: Wearing PPE in the proper manner Storing PPE in the appropriate place provided Removing PPE which could cause contamination before eating, drinking or smoking Practising a high standard of personal hygiene and making proper use of facilities provided

Report any defects found in the control measures PPE or facilities provided to the employer immediately Make themselves available for health surveillance when required and provide information about their health to the medical adviser or doctor

If you see anything unsafe, please contact:	

EE90001 1220 x 900mm £62.29

<b><i>YOUR LOGO HERE</i></b>				
<b>DAILY ACTIVITY BRIEFING BOARD</b>			Site Manager: Number:	Day: Date:
Task	Location Area	Contractor Name	Supervisor Name	Documentation <small>Ram's - Permit - Safety Documents</small>
Site Hazards		Control Measures		Weather Risks

EE90010 1220 x 900mm £62.29

EE90203 2440 x 1220mm £203.94

Material - 10mm correx  
Includes Health and Safety  
Law poster

Includes digitally printed:

- Electric Shock Emergency
- Action Notice
- Fire Action Notice
- First Aider Details
- Emergency Service Details

Plastic pockets for:

- F10 Form
- Insurance Certificate
- Health and Safety Policy
- Site Induction Register
- Scaffold & Plant Register
- Lifting Equipment Register
- Fire Evacuation / Fire Plan
- Accident Book

It is also possible to amend/bespoke this Site  
Safety Notice Board and tailor it to your  
individual needs.

## Hoarding

Printed site hoardings have effectively been the domain of the corporate construction company, but have been increasingly more accessible to all construction companies.

All of the hoarding panels are produced in 8ft x 4ft (2440mm x 1220mm) aluminium composite material to ensure lasting quality finish.

Pricing and lead times vary depending on design and individual requirements. We offer an installation service if required.

Please contact us for a no obligation quote.

## Banners

Construction site banners are an easy and effective way to advertise any build.

Whether banners are needed for internal site wayfinding or to fully cover construction site fencing, these durable banners are available in an unlimited range of sizes.

Banner options available:

### Material

- 340gsm Mesh Banner
- 440gsm Solid Banner
- 710gsm Double Sided

### Fixing

- Eyelets
- Pole Pockets

### Delivery time

5-7 working days

## CE Certified Traffic Signs

The reflective material used on these signs fully conforms to BS EN 12899-1:2007, which has replaced BS 873 parts 5 and 6. These are supplied in 3mm Aluminium composite with channel for fixing. This material has little scrap value and therefore acts as a theft deterrent.

For volume orders please call us for further information and pricing.

For items marked \* please allow an additional 24 hours for despatch to enable us to enter your specific details.

## Boundary Safety Signs

The minerals often present in flooded Quarries make them look like attractive places to swim. However their extreme depths and unknown undercurrents make them exceptionally dangerous.

Some of our sign designs are made for fixing to walls or posts as standard. Please ensure you select the correct code when placing your order. Call our Sales Team for further information.

## Site Safety

**Isolation Procedures**

It is essential for your own safety, and that of your colleagues, that you follow the rules and procedures below when you are carrying out maintenance or removal guarding from machinery. Failure to comply with these instructions can lead to serious injury.

**RULES**

- Do not carry out repairs, maintenance or removal guarding unless you are authorised and the machinery is locked out in a controlled manner.
- It must be made that one person working on the same piece of machinery, their own person must lock out with their own lock and the key must be kept on their person.
- The Lockout procedure must be followed in all circumstances. This is in addition to any other systems, such as trapped air / electrical lockout system.

**LOCKGUARD PROCEDURE**

- Ensure work to be carried out is authorised, where required obtain a permit to work.
- Switch machinery to OFF position and secure with lock out device.
- NOTE: It may be necessary to lock out more than one piece of equipment to work safely.
- Where possible the electricity supply should be isolated at source.
- NOTE: Isolating electrical control circuit to prevent machinery from operating does not always disconnect mains electrical power from the electric motor concerned.
- Where the energy source is compressed air, the air supply to the machinery must be isolated and stored air safely drained/discharge before work commences.
- With the introduction of computerised batching, the control stop button should be depressed.
- Test that the machinery is isolated by pressing the relevant start button.
- Display the "MEN WORKING ON PLANT" notice on the locked out isolator.
- Each person involved in the work must add their own padlock to the lock out and keep the key on their person.
- Carry out the work.
- On completion, if you are the last person on the job DO NOT unlock until you are satisfied that all points are secured correctly and the plant is safe to run.

10|20|30|02802 JK Wall fix

**BATTERY CHARGING PRECAUTIONS**

**Prevent Explosions**

Isolate battery from electrical source before disconnecting. Ensure that there is a good circulation of air to disperse any accumulation of gas before starting work. Never smoke or use naked flames in the battery charging area.

Do nothing that may cause a spark:

- Never tighten or loosen connections while cells are on charge or discharge or gassing.
- Keep all connections tight using an insulated spanner.
- Keep other metal objects away from the tops of batteries.

**Avoid Injury from Electrolyte**

Wear protective clothing and eye protection. If electrolyte splashes – In EYES: immediately use eye-wash bottle or wash out thoroughly with water. On SKIN: rinse liberally with water. On CLOTHING: immediately remove contaminated clothing.

**Don't Spill Electrolyte**

But if you do so accidentally, spill down the spillage immediately with plenty of water – BUT NEVER DO THIS IN THE VICINITY OF HIGH TENSION ELECTRICAL EQUIPMENT – Report the situation immediately and obtain advice.

10|20|30|12164 KM Wall fix

**Fire action**

If you discover a fire

- Operate nearest fire alarm point.
- Call the Fire Brigade by telephoning 999
- Leave the building by the nearest exit.
- Report to your assembly point at
- Do not stop to collect personal belongings

10|20|30|17876 GJ Wall fix

**Health, Safety & Environmental Requirements**

**Tanker Drivers**

- On arrival report to plant operator.
- Ensure all connections are fitted correctly to the charging point.
- Discharge in a controlled manner. Maximum of 1 bar.
- Remain at your controls throughout the delivery process.
- Stop discharge immediately on hearing the alarm or seeing a dust emission & report to the plant operator.
- Do not under any circumstances vent residual air through the silo.
- All residual air must be vented through on board filtration system.
- Any spillages must be reported.
- On completion, lock the charging point & report to the plant operator.

## National Water Safety Signs

BS ISO 20712 part 1: 2008 provides a uniform family of water safety signs based on international designs. These signs should be used at all locations where sport or recreational activities are taking place, to warn the public of possible hazards or dangerous situations and to give specific instructions for their safety.

# Valves and Tags

High quality, long lasting engraved valve tags can be used in conjunction with pipe marking identification to help you comply with legislation.

Round tags come in 1.6mm Brass or 1.6mm Traffolyte engraved with sequence numbering and/or 5 characters. Brass tags are engraved and can be ink filled. Traffolyte tags come in a range of nine different colours, in packs of 25 from 1-25 onwards. (See table below)

## Valve Tags

### Specification

Indoor life	15 years
Outdoor life	5 - 7 years
Upper temp	600°C Natural
Lower temp	-40C
High/Low PH	Poor

## Traffolyte Tags

### Specification

Indoor life	4-5 years
Outdoor life	1-3 years
Upper temp	140C Natural
Lower temp	-40C
High/Low PH	Poor

### ASK US ABOUT

Custom signage is a great way to promote a business, school or event.

Including your company logo, colours and many other options on to your sign will not only make your signs look professional but easily recognisable.

Contact the Stocks Signs Sales Team today on **01737 774077** who will be happy to discuss solutions with you.

## Reflective Traffic Signs

## 3D Pictorial Signs

Our range of 3D pictorial signs are reverse printed on 3mm clear acrylic.

They use bold colours and strong images to produce highly recognisable door signs. These signs can help dementia sufferers, and those with learning difficulties, orientate themselves. They are bright and friendly signs which are ideal for schools and residential establishments.

# Supported Living Signs

## Door Names / Numbers

Use clear and consistent signage to signify each room number and/or the occupant of each room to residents and personnel on site.

Dementia signage should use high contrasting colours, use words, images and be placed in clearly visible locations.

## Dementia Garden

Making every day life as easy as possible for all Dementia sufferers can be done creatively. Dementia Gardens are popular all over the UK's Care Home industry because of their strong, positive affects and their ability to bring joy to their residents using the garden.

Signage can include mimics of road signage and photographic signs, as seen above, to help dementia sufferers navigate the garden safely and stress-free.

As of right now, we are super excited to announce that Stocksigns has been accepted into **Made in Britain**. We are honoured to be a part of the British manufacturing community and be able to proudly show off the use of the registered collective mark.

### Did you know?

Stocksigns Ltd have been proudly manufacturing high quality safety signs in Britain since 1955.

# Bespoke Signs

## Safety Signs

All facilities have different needs, so bespoke safety signs are often essential. Our team will advise on how to stay within health and safety regulation whilst also portraying your required message and even using your branding.

Want to create the sign yourself? Head to our website and use the Create Your Own Sign interactive sign designer.

## Construction Site Hoarding

Prominent hoarding panels help promote and sell forthcoming housing and commercial projects.

## Construction Banners

## Temporary Construction Signs

## Outdoor Signage

## Post Fixed Entrance Signs

## LED Signage

### LED Message Displays

Range of indoor and outdoor signs for eye-catching messaging, suitable for a variety of applications.

## Temporary Traffic Management

Ideal for roadside and large sites with mixed traffic, the range includes 3 sizes of Mobile VMS Trailers and a compact "Mini Unit".

### Vehicle Activated Warning Signs

A flexible sign which can be used for whichever application required. The "SLOW DOWN" and flashing amber wig-wags activate for speeding vehicles.

The printed road sign can be any TSRGD symbol of your choice, such as school crossing, give way, double bend and more.

### Vehicle Activated Speed Signs

A range of 4 standard designs to improve road safety by slowing down speeding motorists:

- SID : Speed Indicator Device
- SLR: Speed Limit Reminder
- SAM: Smiley Activated Message Sign
- Urban: TSRGD approved SLR

### Socially and Environmentally Responsible Partner

- Providing Innovative Products
- Reducing our waste
- Recycling

Visit [www.stocksigns.co.uk](http://www.stocksigns.co.uk) for more

## Easy Ordering

### Understanding the Code

All of our standard products featured in this catalogue are identified by a unique five or six figure product code, followed in most cases by a size code consisting of two letters. e.g. **20 11090 RG**

**10 20 30 11090 KD | RG**

#### MATERIAL CODES

This tells you the materials the sign is available in.

- e.g. **10** = Aluminium  
**20** = Rigid Plastic  
**30** = Self-Adhesive Vinyl

#### SIZE CODES

These are the sizes that the sign is available in. (See price grids for size identification)

#### PRODUCT CODE

This is the unique product code for that design.

### How to Order

**10 20 30 11090 KD | RG**

**10 20 30 11090 KD | RG**

**10 20 30 11090 KD | RG**

#### STEP 1

- Find the sign design you require.
- Note the product code.

#### STEP 2

- Choose the material you require.
- Use our material guide on the left to select the most suitable material for the job.

#### STEP 3

- Look at the sizes your sign is available in.
- Use the price grids for size codes.
- Choose the most appropriate size using the installation guide above.

To order this sign in Rigid Plastic size 600 x 200mm

use the code: **20 11090 RG**

## Payment

- Choose your payment method: Credit Card - We accept Mastercard, Visa and American Express.
- Cheques should be made payable to Stocksigns Ltd.
- Accounts - We will be happy to open a credit account for you (subject to a standard credit check). All such sales are payable no later than 30 days from invoice date.
- BACS Payment welcome. Our account is: The Royal Bank of Scotland plc.  
 Account No. 23111244 Sort code 16-00-15  
**All prices are exclusive of Value Added Tax**
- Phone, post or e-mail (sales@stocksigns.co.uk) your order.

By submitting your order, you confirm that you have read and understood our terms and conditions and agree to be bound by them (please see our T&C's online at [www.stocksigns.co.uk](http://www.stocksigns.co.uk) or call 01737 774077 for a copy).

All rights reserved. All of this catalogue is protected by the Laws of Copyright. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise.

### RETURNING A PRODUCT

We expect our products to meet your expectations. However, if you do need to make a return, you **MUST** use our Returns Procedure.

Please contact our Customer Services Team on 01737 774077, or at [info@stocksigns.co.uk](mailto:info@stocksigns.co.uk), to obtain a returns reference, and subsequently making sure that the packaging is robust enough to avoid damage in transit. On certain returns a re-stocking charge may be applicable.

## Delivery Services

### Export

Worldwide despatch is no problem. Our Export Sales Team is happy to provide quotations for any quantity of signs for any country.

### Collection

At our Trade Counter in Redhill, signs can be purchased and/or collected between 8.30am and 5.00pm Monday - Friday.

### Delivery Costs

The charge for packing, delivery and insurance to most UK mainland postcodes is FREE for standard orders over £50.

Orders for stocked standard signs will be despatched next day and will take between 2-3 days for delivery. Custom made orders will be despatched within 5 working days from receipt of order.

If you require these signs urgently, you may wish to use our premium service, where your signs will be despatched as priority. Please speak to the sales team regarding this service.

### Delivery Charges

Order Value	Delivery Cost
Up to £100	£8.00
£100 or more	Free
Sign Post	£18.00 per post
Construction Signs	£9.75
Large Scale Boards	£54
Off-Shore & Non-Mainland UK	Please contact <a href="mailto:sales@stocksigns.co.uk">sales@stocksigns.co.uk</a>
