## ARE YOUR SIGNS COMPLIANT?

Legislation and compliance has continued to play an increasingly important role in the concerns of signage consumers.

Whether you are health and safety manager, building contractor or the construction site manager – everyone has a duty of care to ensure pertinent and correct signage is put in place where legally required.

This British Standard was replaced in 2011 by BS EN ISO 7010, with this new standard effectively developed to provide a consistency in design across all EU countries.

All of the signs in the Stocksigns Construction catalogue comply with the current standard in place. By publicising this, it is our intention to help all customers understand and fulfil their health and safety obligations.

## ARE YOU A MEMBER OF THE CONSIDERATE CONSTRUCTORS SCHEME?

We can print the CCS logo on your branded signs **FREE OF CHARGE**.

If you are part of the CCS scheme, including the logo is good practice and advertises your commitment to being as considerate to the local community and its surroundings as possible.

By promoting your membership:

- You will show that your company is keen to co-operate with the general public, which may help a smoother delivery of your project.
- It will illustrate you are managing your site to the highest standards of good housekeeping.
- As a considerate construction company, the logo shows your commitment to the environment in terms of waste management and noise levels.
- The logo also serves to demonstrate how seriously you take your responsibilities to safety, for your workers, visitors and the general public.

## ACCEPTED FILE FORMATS

When supplying artwork for print it is important to check that files are suitable **before** submitting them. If unsure, please contact us on 01737 774 741

The following guidelines should assist with preparing acceptable files for print.

### File formats

- jpg/jpeg, bmp or tiff (bitmap images)
- ai, eps or pdf (vector images)

### Bitmap images

- Colours must be CMYK colour mode
- Images must be saved to maximum quality, with a resolution of at least 200dpi for small sized print, or at least 300dpi for large format print.
- Try to avoid compressing the image as this will reduce the quality.
- Minimum logo size for signs up to 400mm wide is 50mm high at 150dpi. For signs larger than 400mm wide, logo size must be no less than 100mm high at 150dpi.

### Vector images

- Colours must be CMYK colour mode.
- Images must be saved as an ai, eps or pdf file.
- All text must be converted to curves, outlines or paths.

Very often these artwork formats are available from your Marketing team, just simply give them this guide and we can work together to provide you with high quality output every time.

If you require our Graphics team to rework your logo, this will be charged at a flat rate of £20

Same day bespoke artwork is charged at a flat rate of £40

Low-res jpg file format

High quality vector image

“ Beard have worked closely with Stocksigns for 6 years and cannot fault the friendly service and speed of delivery. No matter how obscure the request if it is sign related they have never let us down.”

13

Cost effective and easy to fit scaffolding signs are the perfect solution for when normal sign fixing is impractical. Being lightweight but rigid, the signs are made of 4mm Correx, using pre-cut tabs and slots the signs will remain secure in all weather conditions.

## How to assemble

Remove your scaffolding sign from the packaging

Fold the top along the pre-pressed lines and wrap around scaffold pole

Insert tabs into the pre-cut slots to secure in place

**£17.30 per sign**

Fire action

Fire Action

Any person discovering a fire  
 1 Sound the alarm  
 2 Call 999/112 to call the fire brigade  
 3 Attack the fire if possible using the correct type of extinguisher  
 On hearing the fire alarm  
 4 Leave the building by the nearest safe route  
 5 Close all doors behind you  
 6 Report to assembly point

Do not take risks  
 Do not return to the building for any reason until authorised to do so

**All our  
Correx Signs are  
PVC free and  
Recyclable**

**“** The signs are very durable and look good as they incorporate the company logo at no extra cost. Service is very good and delivery is very quick.

David Morgan, Buyer  
(AD Construction Group)

**”**

A new range developed in partnership with the Lucy Rayner Foundation to help raise awareness and offer support. The use of signs on-site can help in creating an open environment where workers can talk about mental health, support each other and seek help.

## The Lucy Rayner Foundation

Based in Surrey, the charity that supports individuals struggling with their mental health, with a particular focus on young people. It was founded in memory of Lucy Rayner, who tragically took her own life in 2012 after struggling with mental health challenges.

The foundation's mission is to raise awareness, provide resources, and offer support to help prevent suicide and improve mental health outcomes for those in need.

The foundation does fantastic work in supporting the construction industry with mental health talks and training.

CONSTRUCTION SITE SAFETY  
SITE MANAGERS SAFETY CHECKLISTThis checklist identifies some of the hazards most commonly found on construction sites. The questions it asks are intended to help you decide whether your site is a safe place to work. It is not an enforcement tool. More detailed information can be found in HSG62 Health and Safety in Construction and other HSE publications.

Aluminium Composite

Printed site hoardings have effectively been the domain of the corporate construction company, but have been increasingly more accessible to all construction companies.

Our Graphics team has a wealth of knowledge and experience with construction projects, being able to ensure that all artwork is co-ordinated. Hoarding panels are manufactured to the highest standard in our UK factory

All of the hoarding panels are produced in 8ft x 4ft (2440mm x 1220mm) aluminium composite material to ensure lasting quality finish.

Pricing and lead times vary depending on design and individual requirements. We offer an installation service if required.

Please contact us on 01737 774 741 for a no obligation quote.

Stackboards are used to advertise larger projects with longer lead times.

Our Graphics and Production teams will be able to help collate the artwork required and produce a finished aluminium composite product that will last the site duration.

Stackboards consist of:

- Aluminium composite signs – various sizes, but normally in the format in the diagram below right
- Posts – Generally 5m, but other lengths available
- Channel – to affix the dibond signs to the posts
- Clips – to secure the signs to the channel

Pricing and lead times vary depending on individual requirements. We offer an installation service if required.

Please call us on 01737 774 741 for a no obligation quote.

Construction site banners are an easy and effective way to advertise any build. As well as improving the external site aesthetics, banners can also be used to communicate important health and safety messages to both your staff and the public.

Whether banners are needed for internal site wayfinding or to fully cover construction site fencing, these durable banners are available in an unlimited range of sizes.

**Banner options available:**

**Material:** • 340gsm Mesh Banner

- 440gsm Solid Banner
- 710gsm Double Sided

**Fixing:** • Eyelets • Pole Pockets

**Delivery time is 5-7 working days.**

Below is a selection of our standard banners which can be modified to fit your requirements.

We can also 'custom make' any design and size to suit your needs, see examples below.

Advertise your company with name-boards on site entrances, hoardings and perimeter fencing.

Choose from our simple layouts or create your own custom designs.

If you do **not have** your company logo as a high-resolution bitmap (PDF/jpeg format) or a vector graphic (eps/ai format) then we can help with this – for a small artwork charge of £20 we can redraw your logo, allowing a high quality print on all your signs.

For more information please call 01737 774 741

### Terms and conditions

- Please supply a high quality jpeg/PDF or an eps/ai file of your logo at time of first order to avoid delay in delivery.
- We will accept your order even if you have not ordered from us before. Our sales staff will be pleased to help in your enquiry and will process your order by the quickest possible method. By placing an order with us, you accept our terms of business.
- If the situation arises where your terms of business conflict with ours, our terms will prevail.
- Orders are dispatched complete whenever possible. In the event of shortages, part shipment will be made unless otherwise instructed from customer.
- We make no guarantee that our goods will conform exactly to their descriptions and illustrations. We have a policy of continual improvement and this may lead to amendments and deletions of our products from the catalogue. We reserve the right to make these changes if and when they may occur.
- We make every effort to ensure that the information we supply is correct.
- Although every effort will be made to maintain the prices stated in the catalogue, they are subject to change without notice.
- We supply our goods strictly on a 'retention of title' basis. Title will not be passed until the goods supplied have been paid for in full with cleared funds.
- We do not operate settlement discounts, all quoted prices are net.
- All of our products are subject to VAT.
- Settlement Terms are strictly 30 days from invoice date.
- Claims will only be entertained if we are advised in writing within seven days from the date of delivery or collection.
- Non standard signs that are supplied correctly may not be returned for credit.
- No part of our catalogue, literature or web site may be copied, stored on any type of retrieval system, or be reproduced.

The Stocksigns Group has over 60 years experience in the signage industry.

When choosing to buy from Stocksigns you can be assured you are purchasing a high quality product complying to the latest UK legislation.
